Bulbs . Plants . Cut Flowers

Don't Destroy! You May Need It Some Time. If Not, Give It to Someone Who May Be Glad to Have It.

FALL PLANTING BULBS

All spring blooming bulbs should be planted after September 1 until December 1.

Prices are quoted for first size bulbs. My bulbs are known for their size and quality. I do not quote cheap prices and furnish small bulbs at the price except when wanted and then at a lower price.

Prices on all bulbs are prepaid, shipped by Parcel Post or Express. Cash with order. Six at a dozen price. Not more than two varieties in a dozen. Per 100 is seven times the dozen rate. Four kinds, 25 at the 100 rate. Hyacinths and Narcissus eight times the dozen price. Special prices quoted on larger quantities.

Remember, you are always welcome. In handing or mailing you this, I always hope for the best.

Washington bulbs are superior and bloom earlier than imported and other bulbs. Shipped before foreign bulbs arrive.

Always write name and address plainly.

Wholesale prices are F. O. B. Bellingham.

Hyacinths

Plant them six inches deep and eight inches apart. All Hyacinths are first size, 17 centimeters.
